The ACTIVE BACK mechanism makes absolute comfort possible.

OKAMURA CZ: Superior design, easy operation, elegant style, unsurpassed comfort. We do our best work when sitting in a relaxed and reclined posture that lets us devote our mental energy to the tasks at hand. The OKAMURA CZ active back design provides the perfect support for this ideal office working style. The body fits snugly and comfortably to the back of the seating's three-element design of mold urethane cushioning, honeycomb-resin shell, and aluminum frame. The seating envelops the body from the shoulder blades on down and achieves a level of comfort unsurpassed by any other office seating.

Exceptional functionality and unsurpassed workmanship in a stylish design

The design of the OKAMURA CZ office seating includes a simple, sleek, and graceful frame line, intricately stitched covering, and careful workmanship put into every detail and part. What's more OKAMURA CZ's exceptionally easy to use smart operation function lets you set your ideal working position while seated. OKAMURA CZ's startlingly original style seamlessly combining unsurpassed seating comfort, novel and innovative design, and state-of-the-art functions ushers in a new standard for office seating for the modern workplace.

●FUNCTION

This unique mechanism reclines the seat around an ankle up to a range of 26° adjusting naturally to offer maximum comfort for any posture.

A dial for adjusting rocking resistance enables you to set the reclining resistance to meet your body shape and posture while sitting.

The plastic frame bends naturally to conform to your body shape and posture for added support and comfort.

You can easily adjust the reclining angle with the lever located in the left armrest.

You can easily adjust the seat height up to a maximum of 100mm with the lever in the right armrest.

A lever positioned underneath seat for easy reach enables you to easily slide the seat backward or forward up to 50mm.

The lumbar support conforms to your physique and provides back support. You can adjust the height of the lumbar support up to 50mm.

The headrest can be raised and lowered, moved forward and backward.

This is a cushion that can be attached to cover the backrest frame, which prevents damage to wooden desktops.

●ECOLOGY

**Recycled materials: 57%**

Recycled materials are used in aluminum and resin parts. These materials make up about 53% by product weight.

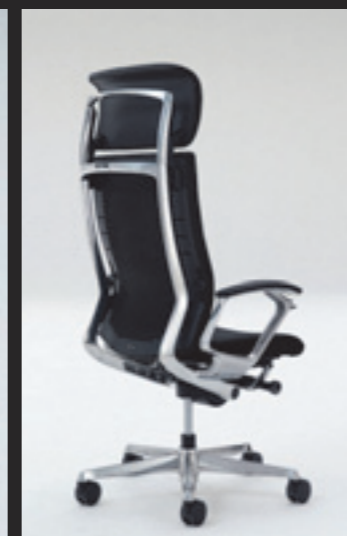

**Recyclability: 97%**

With future recyclability firmly in mind during the design stage, we use homogeneous materials as much as possible. After use, our products can be collected and disassembled into homogeneous materials.
