# MECHANISMS FOR HEALTHY, DYNAMIC SITTING

IDEAL FOR INDIVIDUAL WORKPLACES

**SYNCHRO MECHANISM**  
The seat and backrest move in tandem with the body in a ratio of 1:2.5. The counter-pressure can be adjusted individually.

IDEAL FOR TEMPORARY WORKPLACES USED BY SEVERAL PEOPLE

**I-SEATING® MECHANISM**  
The user's weight is recognised and, automatically, backrest counter-pressure is adjusted accordingly. Intuitively, the user sits correctly. Ideal for workplaces that are used by different people.

# SETTING AN EXAMPLE IN ENVIRONMENTAL TERMS *WE TAKE RESPONSIBILITY*

With our products and for our products. We take into account all aspects of sustainability and place high importance on the use of environment-friendly materials and production processes that are gentle on natural resources, such as the use of solvent-free powder coatings for frames or CFC-free upholstery materials.

Furthermore, our use of comprehensive product testing enables us to guarantee high functionality and durability to meet changing requirements simply by retrofitting or replacing components within a modular system. Our environment certificate documents our recycling statistics and reusability at a glance, making it easier to opt for eco-friendly products that are sustainably manufactured.

### OUR RESPONSIBILITY IS BASED ON THE FOLLOWING PRINCIPLES:

- ▶ Preference for reusable materials
- ▶ Marking of plastic components by material type
- ▶ Using easily-released connections
- ▶ Separation of materials to allow the return of resources to the material chain
- ▶ High functionality to guarantee product flexibility in the long term
