

Very Task

Product Sheet

VERY VERSATILE

SMART. VERSATILE. RESPONSIBLE.

To develop a top product for a reasonable price, you have to think, plan and produce globally. Drawing on Haworth's vast experience of ergonomic seating solutions and scientifically tested functions, we can provide such a product.

Ergonomically shaped seats that are designed for longer periods of sitting. The seat is not a set shape, but instead yields and adapts individually to the user's body shape and thus alleviates and distributes the pressure evenly.

Very seating is easy on the environment. The chairs are manufactured using recycled content and offer a high degree of recyclability at the end of life. They are GreenGuard certified and can contribute to LEED certification. The Very family supports your posture and your sustainability strategies.

With models and options to support a variety of task and collaborative needs, Very works to bring consistency throughout an organisation. Featuring chairs perfect for corner offices, conferencing, cafeterias, medical centres, classrooms —and all points in between — Very can operate in a wide range of environments.

DETAILS.

DESIGNER Michael Welsh, Nicolai Czumaj-Bront & Haworth Design Studio
